

School Counselor Newsletter

BLANCA VALENCIA

A word from your counselor!!

Last month (January) was a great month in which our main focus was going over the different forms of bullying and the importance of notifying an adult such as a teacher, principal, yard duty, bus driver and of course myself, the school counselor. Students were explained that Spratling Middle School will not tolerate any form of bullying.

Parents,

We can continue to work on this topic at home as well. Talk to your student on the importance of never to tease, name call, harass, or physically aggravate anyone. It is also important your students communicate to you if they are being bullied at school, afterschool or in public. As your school counselor I take this matter very serious. I want my students to feel safe and enjoy coming to school every day.

Please contact me at either site if you have any questions or concerns.

Happy Valentines Day!!
